ABOUT US

Founded in 2023, Euclideum Solutions Pvt Ltd was established to formalize over 13 years of institutional and operational experience gained within the education industry. IntelQI is the result of this journey, shaped by real-world challenges observed across academic and administrative environments.

This experience originates from Campus Credential LLP, where our Technology & Development team worked closely with institutions for more than a decade, supporting over 1.2 million students across 75+ partner institutions.

These engagements provided direct exposure to fragmented processes, compliance pressures, and decision-making gaps that institutions face at scale.

Euclideum was formed to translate this understanding into robust and sustainable software systems, building reliable digital foundations that support mission-critical operations and institutional clarity.

Mission

To empower educational institutions through IntelQI's innovative digital solutions that simplify administration, enhance learning experiences, and improve operational efficiency.

We strive to deliver reliable, scalable, and high-quality technology while upholding the highest standards of integrity, professionalism, and innovation, enabling institutions to build smarter, more connected, and future-ready digital campuses

Vision

To be a trusted technology foundation for institutions seeking operational clarity, accountability, and future-ready institutional resilience.

We envision sustainable, transparent systems that allow institutions to focus on outcomes and growth rather than operational complexity.

IntelQI UDC

Unified Digital Campus

IntelQI UDC is a comprehensive Unified Digital Campus platform designed to centralize, govern, and streamline institutional operations across academic, administrative, and regulatory domains. Built as an enterprise-grade ERP, the platform unifies fragmented systems into a structured digital foundation supporting both daily operations and long-term institutional governance.

The platform spans the complete institutional lifecycle, including student information management, academic operations, examinations and evaluations, faculty and workforce management, finance and accounts, campus administration, accreditation readiness, and analytics-driven reporting. Each module operates independently while remaining fully integrated within a unified data and process architecture.

IntelQI UDC is engineered to align with existing institutional structures, adapting to diverse academic models, regulatory requirements, and operational practices. Role-based access controls, centralized data governance, and configurable workflows ensure transparency, accountability, and consistency across departments and stakeholders. By connecting data, workflows, and decision-making into a single platform, it enables institutions to transition from reactive operations to informed, structured, and future-ready governance.

Five Integrated Modules

To deliver innovative, high-quality solutions that exceed our clients' expectations while maintaining the highest standards of integrity and professionalism. Enterprise-Grade Security Bank-level encryption and compliance with international standards

Unified Data Architecture

Single source of truth across all institutional modules.

Governance-Ready Design

Built for compliance, audits, and regulatory reporting.

Scalable & Secure Platform

Enterprise-grade security with multi-campus scalability.

13+

Years

Institutional domain experience

75+

Students

Managed through our platform

Core Modules

01 Student Management System

Comprehensive platform managing admissions, enrollment, academic records, and complete student lifecycle with accuracy and efficiency.

02 Campus Administration

Integrated system streamlining campus operations, infrastructure coordination, and administrative workflows for efficient institutional governance.

03 Faculty Management System

Robust platform managing faculty profiles, recruitment, workload allocation, performance evaluation, and professional development activities.

04 Examination & Evaluation

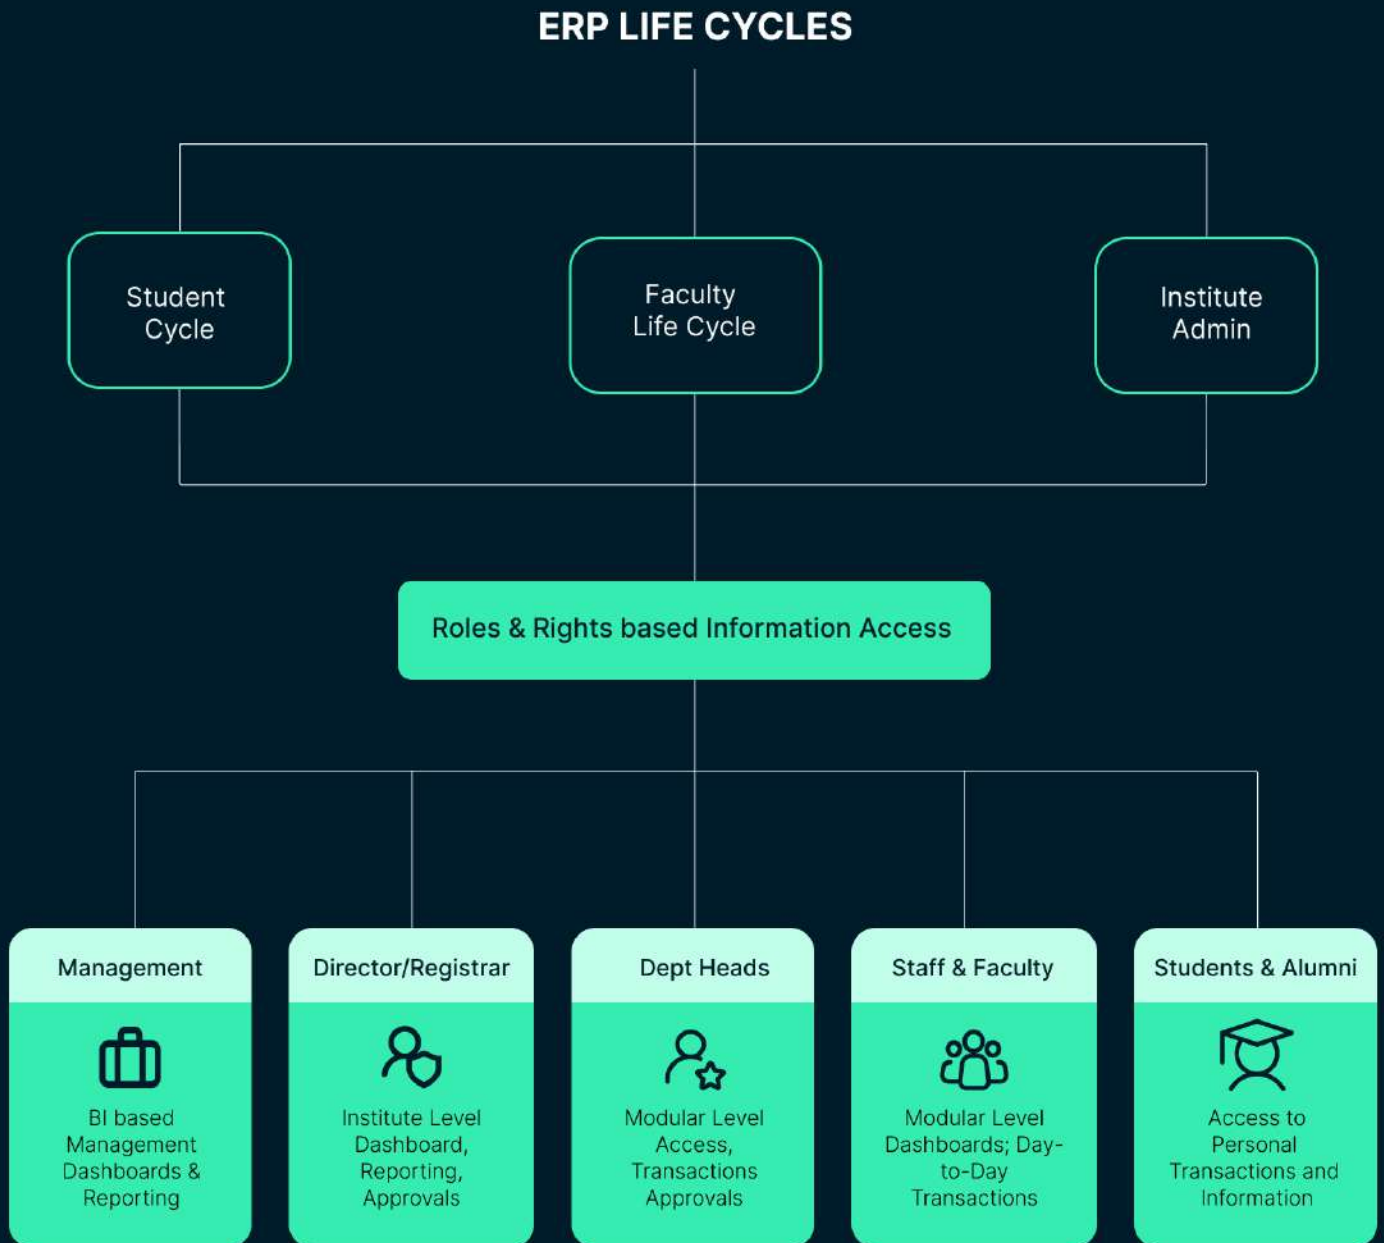

Advanced system managing examination scheduling, assessments, grading processes, and results with accuracy, transparency, and efficiency.

05 Finance & Accounts

Integrated financial management system handling fees, accounting, budgeting, and reporting while ensuring compliance and transparency.

ERP Life Cycle Process

Why our ERP stands out

Built from real institutional challenges, our ERP prioritizes reliability, clarity, and long-term sustainability, enabling institutions to replace fragmented processes with dependable, unified digital systems.

ERP

IntelQI follows a structured, five-step implementation approach designed to minimize disruption, align with institutional policies, and ensure a smooth transition from planning to long-term operational stability. Each phase is executed with a clear focus on accuracy, adoption, and measurable outcomes.

01 Discovery & Planning

Assess existing processes, identify operational gaps, and define implementation priorities aligned with institutional objectives and governance requirements.

02 System Configuration

Configure modules, workflows, and rules to reflect institutional policies, academic structures, and administrative processes within the ERP framework.

03 Database Consolidation

Migrate and validate legacy data using structured ETL processes to ensure accuracy, consistency, and centralized data integrity.

04 Deployment & Training

Configured according to institutional policies, the system is deployed with user training and guided onboarding to ensure smooth adoption and effective use.

05 Support & Optimization

After going live, the provider offers continuous support and upgrades, monitoring activities to ensure optimal system performance, resolve operational issues promptly, and continuously enhance functionality.

Module 01

Student Management System

Onboarding & Operations

Streamline the entire student lifecycle post-admission. From immediate Student Onboarding and Enrollment to maintaining digital Admission Registers, the system ensures a structured start for every student.

Smart Identity Architecture

Automate Student ID Generation and issue Smart/RFID Identity cards. The system also handles Student certificates generation effortlessly

Mentorship & Support

Ensure student guidance through automated Mentor Allotment and comprehensive Orientation Management. Access Roll lists, Student Services, and detailed Student MIS reports

Core Features

A unified engine for managing leads, admissions, and fees. It supports complex multi-campus workflows and multi-currency structures, ensuring seamless scalability and data integrity

Lead Strategic Vision

- Lead Capture Automation
- Campaign Management
- Lead Nourishment

Lead Analytical Insight

- Lead Allotment & Follow-Up.
- MIS Dashboard & Reports for insightful decision making.

Organization Setup

- Define Organization Setup (Institute, Degree, Programs)
- Configure Fees & Course parameters
- Set up Global Fee configurations

Admission Config

- Admission Configurations (Multi-entry)
- Program Offer management
- Centralized Multi-campus management.

Application Process

- Application Management
- Direct Admission management.
- Prospectus Sale management

Testing & Selection

- Aptitude Testing
- Merit list Generation.
- Offer Letter Issuance

Scheduling & Data

- Candidate Interview Scheduling.
- Bulk Upload of Admission data.
- Data migration support

Financial Assistance

- Scholarship Management.
- Installments Management.
- Concession Management.

Fee Management Operations

- Fees collection (Multi-currency enabled).
- Program Transfer Management.
- Flexible payment structure support.

Reporting & Analytics

- Daily/Monthly Fee reports & Fee Ledgers.
- Outstanding fee & Bank reports.
- Fees Data Export to Excel.

Module 02

Campus Administration

Campus Administration

Achieve institutional goals through centralized monitoring and data-driven strategies. Gain complete control over facility operations and compliance while identifying key areas for intervention.

Hostel Management

- Hostel Structuring
- Hostel Admissions & Fees
- Room & Mess Management
- Cancellations & Refunds
- Mess Billing Management
- Attendance Management
- Dues Recovery

Training & Placement

- Multi-Role Logins
- Registration Management
- Placement Workflow
- Selection Records
- Hiring Closure
- Placement Analytics
- Training Management

Operations & Compliance

- Alumni Management
- Visitor Management
- Transport Management
- Accreditation Management
- Role-Based Access
- Bulk Records Management
- Data Export

Accreditation Data

- Access Control
- Evaluation Dashboards
- Record Management
- Assessment Oversight
- Statistical Analysis
- Evaluation Analytics
- Training Management

A large, semi-transparent, light blue number '04' is positioned in the background, centered horizontally and vertically. The '0' is a simple oval shape, and the '4' is a stylized, blocky font.

Module 04

Examination and Evaluation

Campus Administration

Pre-Examination

01

- Student Detention Management
- Lead Nourishment
- Scheduling & Time Table
- Lead Capture Automation
- Paper Audit & Utilization
- Pre-Exam Reports Generation
- Exam Registration & Approval
- Roll No. & Hall Ticket Allotment

- Online Proctored Examination
- Mobile & Web-based Exams
- Dynamic Exam Configurations
- Invigilator Monitoring Tools
- Question Randomization & Shuffling
- Malpractice Monitoring
- Digital Monitoring
- Mock Tests & War Room Support

02

Digital & Online Exams

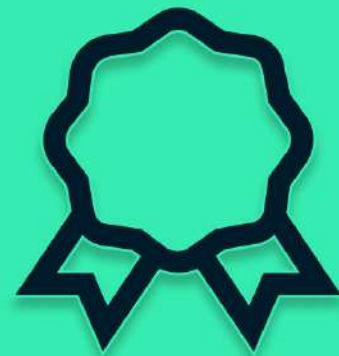

Processing & Evaluation

03

- Docket Preparation (Absent/UFM)
- Bundle Generation & Valuer Assignment
- Absolute/Relative Grading Criteria
- Passing Scheme Definition
- Marks & Grade Entry
- SGPA, CGPA & YGPA Calculation
- Moderation Closure
- Result Publishing & Grievances

- Result Analysis & Graphs
- Grade Cards & Mark Sheets
- Tabulation Register & Gazette
- Provisional Degree Certificates
- QR-Code/Rfid Certificates
- Convocation Reports
- Summer Term Management
- Exam Analytics Dashboards

04

Certification & Reports

Module 03

Faculty Management System

Faculty Operations

Comprehensive Leave Automation

01

Policy & Accruals: Automates all leave types (standard & custom), opening balances, and periodic crediting

Digital Workflow: Streamlines the entire online application and approval process.

Biometric & Shift Sync: Integrates attendance device data directly with shift management.

Special Leaves: Manages On-Duty (OD) applications and Compensatory Off tracking.

02 Recruitment & KPIs

Hiring Management: Streamlines the entire recruitment workflow.

Auto-KPIs: Generates performance indicators automatically.

Profile Database: Centralizes all faculty records.

Performance Tracking: Monitors metrics and progress over time.

03 Centralized Record Keeping

Comprehensive Service Book: Tracks personal, family, professional, pay, disciplinary, and leave history.

Digital Repository: Scans and archives original employee documents.

Allowance Management: Handles LTC, CPDA, and education allowance claims.

○ End-to-End Financial Reporting

Payroll & Financials: Generates monthly payslips, salary registers, bank/installment statements, and annual summaries.

Statutory Compliance: Covers detailed reports for PF, ESIC, LIC, PT abstracts, and Income Tax filings.

Employee Documentation: Handles general employee info reports and automatic ID card generation.

Analytical MIS: Provides flexible, field-specific reporting for deep data analysis.

05 Payroll, Tax & Compliance

- **Employee Profile:** Maintain comprehensive employee profiles.
- **Monthly Pay Process:** Process Monthly Pay bills for all employees (Regular, Adhoc & Pensioners).
- **Pay Commission Support:** Supports 7th Pay, 6th Pay, and 5th Pay commissions.
- **Supplementary Bills:** Handles additional payment processing.
- **Tax Management:** Define Income Tax rules & calculate accordingly (Form 16, 24Q).
- **Statutory Compliance:** Manages PF (Provident Fund) and DA Arrears.

Module 05

Finance & Accounts

Finance & Accounts

Financial Operations

Streamline your accounting by handling everything from custom ledger definitions to complex voucher entries like JVs and contras. The system automatically organizes this data into accurate receipt statements and printable day books, ensuring your records are always audit-ready.

○ Taxation & Compliance

- Bank-level encryption and compliance with international standards
- Bank-level encryption and compliance with international standards

○ Budgeting & Assets

- Handle Budget Allocation & Monitoring.
- Manage Fixed Deposits (FD) & Assets.

○ Bill Passing System

- Manage Bill raising, Approvals, & Payment requests.
- Automate Maker & Checker Approvals.

○ Multi-Entity Mgmt

- Consolidated Balance sheet for multiple Cash Books.
- Project Fund Management.

Core Features

A comprehensive financial engine designed for educational institutions. It integrates directly with Student Fees and Payroll to automate data transfer, ensuring accurate Reconciliation, Taxation, and Final Account generation

System Integration

- Fee Integration
- Payroll Sync
- Unified Data (Covers error reduction & ecosystem)

Banking Operations

- Bank Reconciliation
- Online Payments
- Cheque Printing

Financial Reporting

- Final Accounts (Covers Balance Sheet & Trial Balance)
- Income Statements
- Real-time Reports

Core Transactions

- Manage Transactions (Covers Receipts, Payments, Contra)
- Process Financial Adjustments
- Automated Ledgers (Covers Cash/Day Books & Heads)
